Comments (related to Tommaso Sonno – all comments, no selection):

- The TA was fundamental for the course, thanks to him I was able to understand the topic presented by the Professor during classes.
- Prof. Sonno: excellent preparation, which translates in excellent preparation of the class. A lot of hints on how to simplify problems proposed.
- TA sessions very useful.
- Excellent TA!
- The TA service is efficient and very useful for the preparation of the exam, a lot more than the actual classes.
- Worth noting the excellent TA Tommaso Sonno, in my opinion irreplaceable in the explanations of microeconomics for the exam preparation.
- Extremely appreciable the teaching of Tommaso Sonno.
- Professor Tommaso Sonno was able to clarify a lot of doubts left over by theoretical classes. Probably for his young age he is able to understand the problems faced by students in the learning process and he therefore prepared sum-up schemes to understand how to approach exercises with lower difficulties. Because he is very motivated in teaching and in the involvement of students during the class, I would like that all Professors of the University could have his teaching capabilities and his clarity skills in explaining the topics.
- TA sessions very useful.
- Increase number of TA sessions. [Comment expressed by 5 students]
- Professor Tommaso Sonno is always strongly available for clarifications to potential problems. Despite having a limited amount of time for teaching, which is the one dedicated to TA sessions, he is very clear and he is able to sum-up efficiently all the topics of the program.
- I particularly appreciated the work done by Tommaso Sonno, which was very useful for the preparation of the exam. The class would have been willing to attend more TA sessions held by him.
